To Whom It May Concern:

Erik Eskeland of Four Seasons Pools LLC has been maintaining the Beach Club at the Tuscany commercial pool and spa since April 2008.

Every year Erik continues to keep up to date on the latest technology in pool equipment, chemicals, plumbing, electrical, hydraulics and more.

The Beach Club at Tuscany was the first property in North Florida to have the new Geothermal SunPower Heater technology. This new technology was recommended and installed by Erik at Four Seasons Pools LLC. This has been a large cost savings since it eliminated all the propane costs for the spa and paid for itself in less than a year!

The Big Bopper Heater was also recommended and installed by Erik, which eliminated all propane usage for the pool, at another large savings to the Tuscany.

We are happy to have Erik and his company's professional care of our pool and spa. Erik goes above and beyond what is expected, which is why he has been maintaining the pool and spa for the past 5 years.

Very truly yours,

Jayne F. Briggs
Licensed Community Association Manager
